

Evergreen

Plants are the best—first, second, and third place. So we took our appreciation to new heights, both figuratively and literally. Designed to accommodate larger outdoor greenery, this robust planter system lets you create inviting spaces where nature and architecture blend seamlessly.

The modular system expands infinitely, forming everything from lush green islands to structured boundaries in public spaces—with just four core elements: Planter, Pot, Bench, and Table.

Evergreen is built to last—crafted from hot-dip galvanized steel, making it resistant to rust for a lifetime. For the seating surface, we've chosen bamboo, a material that is not only durable and sustainable but also weathers without losing its natural beauty.

Design	Addi Design Studio
Environment	Indoor/Outdoor
Material	<p>The planter consists of 8-30% recycled metal and is warm galvanized.</p> <p>The galvanization is a strong surface finish that will make the planter last. In the beginning it will be shiny and after time it will get a more matte finish. The surface can have small irregularities and not entirely smooth finish.</p> <p>Wood: The seat is made of environmentally friendly bamboo?</p>
Country of origin	Sweden
Certificates	EN ISO1461
Preassembled	Partial assembly required, see assembly instructions.
Repairability	All parts can be replaced separately, the seat boards can be replaced individually.
