Log
2040 L.LT

The Log Collection is simple in form, bold in proportion. Crafted from solid Ash hardwood, laminated and turned to create its chunky circular top and three cylindrical legs. Named for its log-like form, the design takes inspiration from the natural shape and character of timber, reimagined with a smooth, refined finish.

The Log Low Table can also be specified with natural stone, terrazzo or aluminium tops, with custom timber stains to complement individual project palettes.
